

Wrangler Holeshot

MOTOCROSS START GATE

Having one of The Wrangler Holeshot Start Gates is key to performing at your best when it comes to motocross racing.

All gates are singular but connect together forming a larger gate, so when you and your mates get together, you can practice side by side.

Dan and Eli Heywood

Sam Middleton & Richard Underwood

Made in NZ with quality materials and hot dip galvanised.

Our thanks to Encounter for their thorough testing & endorsement.

To Use:

1. Prop MX Start Gate onto starter mechanism.
2. Pull rope to drop MX Gate, and race away.
3. Reset MX Gate with reset handle.

“Richard and his friends are having a great time with the MX Start Gates. A much loved and useful early Christmas Present”

Fiona White, Amberley.
