

CALVING ATTACHMENT

INSTRUCTIONS FOR USE

1. LOAD COW

- Walk cow into Wrangler
Attach rump chain behind her
- Close headbail
- Attach belly straps (as required)

2. LOWER CALVING ATTACHMENT

- Swivel calving attachment down
- Slot  pipe inserts into slide bar ring and secure with 4mm R clip
- Repeat on other side

3. PULL CALF

- Rope attaches to pin on back leg winch, round back leg bar, then onto calf
- Tension using back winch & pressure on rope

The calving attachment has two height/angle settings. Use top side-bar ring for level pull or use bottom side-bar ring for downwards pull
